PROFESSIONAL EXPERIENCE & ACHIEVEMENTS

VISTA RETAIL SUPPORT—Service Desk Advisor

UK, July 2025 – Current

1. Provide first-line technical support to retail clients via phone, email and remote support tools, resolving hardware, software and network issues within agreed service level targets.
2. Log, categorise and prioritise incidents and service requests using IT Service Management (ITSM) systems, ensuring accurate documentation and timely escalation where required.
3. Troubleshoot Microsoft Windows desktop environments, Microsoft 365 applications, printers and endpoint devices across multiple retail locations.
4. Perform user account administration including password resets, access management
5. and onboarding support while maintaining compliance with security policies.
6. Monitor and manage service desk tickets to ensure efficient incident resolution and clear communication with users throughout the support lifecycle.
7. Collaborate with second line team to diagnose complex technical issues and ensure minimal disruption to client operations.

8. Deliver high-quality customer service while supporting multiple clients, maintaining strong communication and professionalism in fast-paced support environments.

AMTEC MOTORS —IT Support Specialist

Harare, January 2021 – 2025

1. Developed and optimised over 25 Microsoft SQL scripts for data retrieval and business intelligence reports, enhancing data accuracy and report generation efficiency by 30%.
2. Managed and maintained Microsoft 365 services, including Exchange Online, SharePoint, OneDrive, Outlook and Teams, resulting in a 25% increase in user productivity and satisfaction.
3. Executed user provisioning and licence management for 200+ employees, ensuring compliance with security configurations and reducing unauthorised access incidents by 40%.
4. Provided technical support to end-users via phone, email, and in-person, resolving 90% of hardware, software, and network-related issues within 24 hours.
5. Designed and implemented a troubleshooting protocol for office-related issues, reducing average resolution time from 3 days to 1 day.
6. Configured and managed LAN/WAN, TCP/IP, DNS, DHCP, and VPN settings, improving network reliability and connectivity by 20%.
7. Diagnosed and resolved network connectivity issues, achieving a 98% success rate in restoring network functionality within 2 hours.
8. Conducted regular system maintenance and updates, decreasing system downtime by 15% and ensuring seamless operation of the technology infrastructure.
9. Trained over 50 employees on Microsoft Office applications (Word, Excel, PowerPoint, Outlook), leading to a 50% reduction in user-related support tickets.
10. Collaborated with IT team members to implement new security measures, reducing security breach incidents by 35% over a one-year period.
